ACTUARIAL

RISK MANAGEMENT

COMPLIANCE

(Re)insurers operate in an increasingly complex landscape with extensive expectations on key control functions of Actuarial, Risk Management, Compliance, and Internal Audit. Maintaining adequate in-house expertise can be challenging and expensive.

With Finalyse's Outsourced Service Solutions, we provide a tailored partnership that enhances your control functions while ensuring independence, expertise, and regulatory compliance.

Outsourcing Solutions

- **Fully Outsourced Functions** - Suitable for small or mid-sized undertakings without any in-house expertise. Finalyse domain experts assume full responsibility for running the control function.
- **Outsourced Function Head** - Suitable for small or mid-sized undertakings with some in-house expertise. Finalyse provides an experienced head of function to co-ordinate control function activities, providing oversight and direction to the in-house team.
- **Independent Assurance Solutions** - Suitable for large or mid-sized undertakings with comprehensive in-house teams. Finalyse provides an independent head of function, providing assurance to Boards and management teams, adding-value through peer benchmarking, and pragmatic recommendations.
- **Interim and Emergency Outsourcing** - Our consultants quickly fill unexpected absences due to illness or resignation, or provide interim support for planned absences like maternity or career breaks. Coverage durations vary from weeks to months, enabling orderly transition planning and offering critical crisis management support.
- **Talent Mentorship & Oversight** - Our mentorship services support internal emerging talent as they prepare to transition to senior roles. We assume responsibility of control function obligations, gradually easing to an advisory role as in-house talent assumes greater responsibilities.
- **Start-up Solutions** - We support start-ups by developing control functions and systems of governance from the ground up, allowing management to focus on scaling their business. Upon reaching critical mass, we facilitate training and passing of ownership to in-house resource.
